Contents

How this report is organised

Part	Content
About	About this report · SDG 1 at a glance
Part 1	Indicator 1.2.1 — Students receiving financial aid because of poverty
Part 2	Indicators 1.3.1 – 1.3.5 — Access, success and support for students from the poorest households
Part 3	Indicators 1.4.1 – 1.4.4 — Community anti-poverty programmes
Summary	Summary of evidence for SDG 1
Annex A, B	Signed government agreements — SEEDAP (A1–A9) and NSDC (B1–B6)
Annex G, L	Jaquar Foundation agreement (G1–G2) · Seed money sanction letter (L1)
Annex J, D	Sewing Machine Operator course — trainee register and photographs (J1–J7) · 2nd Rythu Sammelanam (D1–D5)
Annex H, C, V	Healthcare on Wheels (H1–H18) · Eye-health camps (C1–C18) · Community health photographs (V1–V4)
Annex I, P	Skill course register and photographs (I1–I3) · On-campus student health programmes (P1–P3)

NOTE FOR REVIEWERS

Figures on students — scholarships, fee reimbursement, admissions and retention — are taken from the University's scholarship ledger, the Jnanabhumi status report, the student register and the Registrar's records for academic year 2024–25, as named under each table. Figures on community programmes are exact counts from signed agreements, registers and event reports; figures from the allied health team's activity registers are marked "as recorded".

2025 About This Report

SDG 1 — No Poverty at CUTM AP

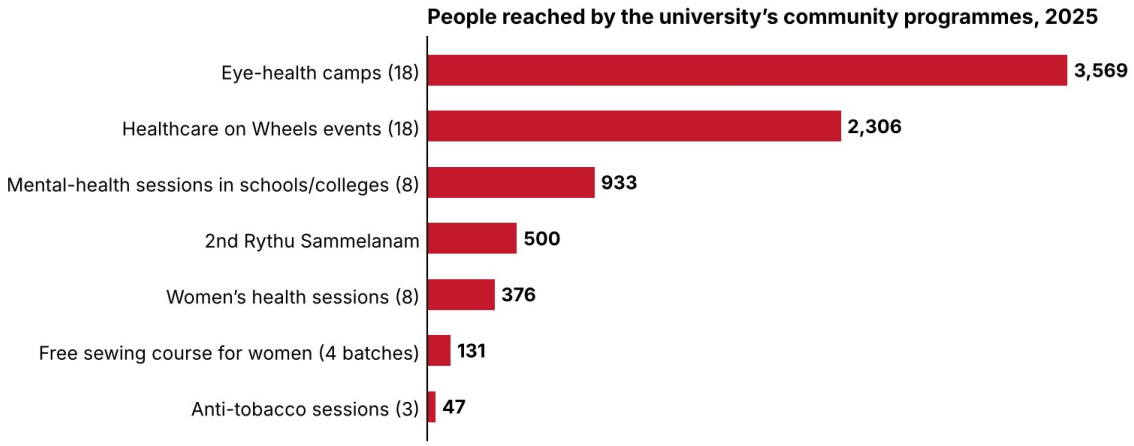

Centurion University of Technology and Management, Andhra Pradesh (CUTM AP) stands in Tekkali village, Nellimarla Mandal, in Vizianagaram — one of India's aspirational districts, identified by the Government of India for its lower levels of income, health and education. Most of its students come from farming, labouring and tribal families in north coastal Andhra Pradesh. The University works against poverty in two directions: it makes sure that family income decides neither whether a young person can join the University nor whether they can finish, and it opens its campus, skills and health services to the poor communities around it.

Indicator	Claim	Key evidence	Where
1.2.1 Students receiving financial aid because of poverty	✔ Yes	467 of 1,947 students (24.0%) received University scholarships worth ₹78,84,250 in 2024–25; 169 first-year students verified for state fee reimbursement.	Part 1
1.3.1 Bottom quintile admission target	✔ Yes	Equal Opportunity and Poverty Reduction Policies (2024); 365 of 499 admitted in 2024–25 (73.1%) from SC, ST and BC communities.	Part 2
1.3.2 Bottom quintile student success	✔ Yes	82% pass percentage (2025); 92% of the 2024 batch and 96.7% of the 2025 batch still enrolled.	Part 2
1.3.3 Low-income student support	Partial	Free health care, counselling and grievance support; concessional transport passes; food and housing charged without concession.	Part 2, Annex P
1.3.4 Bottom quintile student support	✔ Yes	Scholarships, fee waivers, skill courses (1,464 students), remedial classes and mentoring.	Part 2, Annex I
1.3.5 Students from low or lower-middle income countries	Partial	2 PhD scholars from Syria (2025), self-funded, with full access to non-financial support.	Part 2
1.4.1 Local start-up assistance	✔ Yes	Free Sewing Machine Operator course: 131 local women certified; Jaquar Foundation skills lab MoU (1 Sep 2025); Rythu Sammelanam.	Part 3, Annex J, G, D
1.4.2 Local start-up financial assistance	Partial	Access to bank loans for small enterprises through GTIDS; SEEDAP enterprise programme; University seed money grant (₹1,99,349, 10 Jul 2025).	Part 3, Annex A, L
1.4.3 Programmes for services access	✔ Yes	Free health care for 5,875 people through 36 documented events; medical camps, blood donation, awareness sessions and financial literacy.	Part 3, Annex H, C, V
1.4.4 Policy addressing poverty	✔ Yes	Knowledge partner to the Government of Andhra Pradesh (SEEDAP) on rural self-employment; advisory partner to NSDC; district farmers' forum.	Part 3, Annex A, B, D

1 SDG 1 at a Glance

Exact figures from records, agreements and event reports

1,947 students on campus, 2024–25	**467** on University scholarships	**₹78,84,250** University scholarships paid	**169** verified for state fee reimbursement
365 of 499 new students from SC, ST, BC	**82%** pass percentage, 2025	**96.7%** of 2025 batch still enrolled	**2** PhD scholars from Syria
131 local women trained free	**36** free health events with photo proof	**5,875** people given free health care	**400** farmers at the district forum

People reached by the University's community programmes, 2025. Sources: event reports, eye-camp records, trainee register; awareness sessions as recorded.

PART 1

Indicator 1.2.1

Students Receiving Financial Aid Because of Poverty

Scholarships from the University's own funds, and help to claim the State's fee reimbursement

1.2.1 Financial Aid to Students from Poor Families

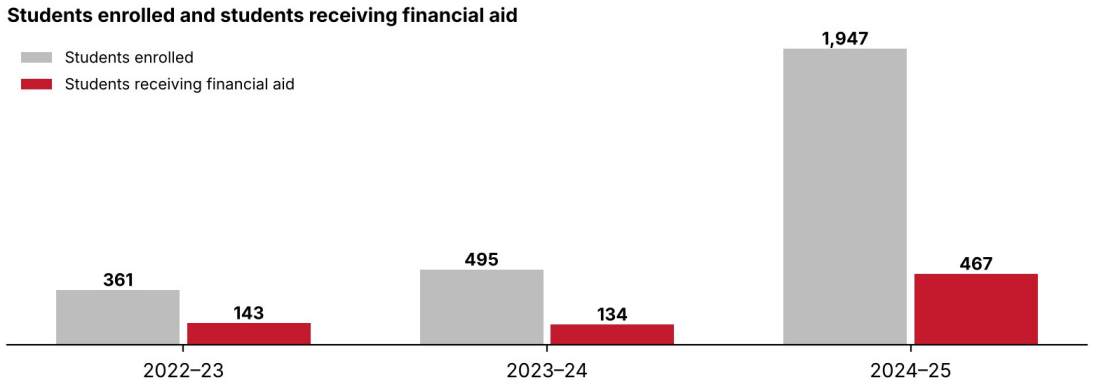

Academic year 2024–25

For many families in north coastal Andhra Pradesh, the cost of a degree is the main reason a capable young person does not go to university. The University answers this in two ways: it pays scholarships from its own funds, and it helps students from poor families claim the State Government's fee reimbursement.

467	24.0%	₹16,883	169 of 499
students on University scholarships	of 1,947 students	average scholarship	new students verified for fee reimbursement

Academic year	Students enrolled	Students receiving aid	Share	Amount disbursed
2022–23	361	143	39.6%	₹2,13,51,250
2023–24	495	134	27.1%	₹2,11,48,050
2024–25	1,947	467	24.0%	₹78,84,250*

*Source: University scholarship ledger. *2024–25: University scholarships only; government fee reimbursement is in addition.*

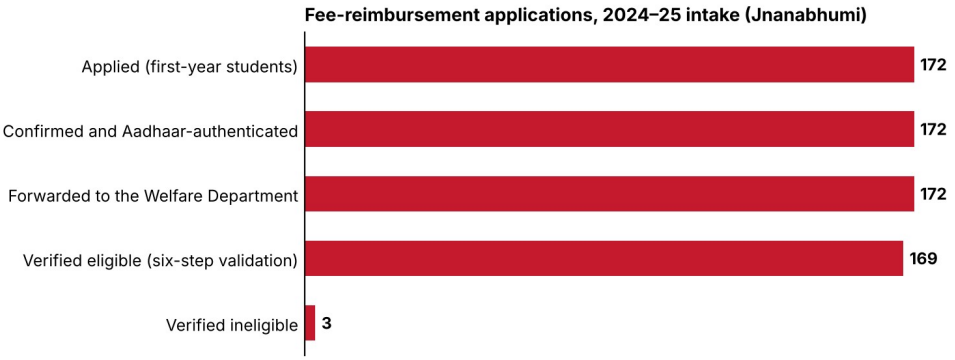

Students receiving financial aid more than tripled, from 143 to 467, as the campus grew from 361 to 1,947 students.

1.2.1 Government Fee Reimbursement and University Scholarships

How the aid reaches students

State fee reimbursement for poor families (Jnanabhumi)

The Government of Andhra Pradesh reimburses tuition fees for students from low-income families through the Jnanabhumi portal. A family qualifies only after a six-step validation of household income, land holding, vehicle ownership, government employment, income-tax status, electricity use and urban property. Of the 499 students admitted in 2024–25, 172 applied; every application was confirmed, Aadhaar-authenticated and forwarded, and 169 (98%) were verified eligible — about one in three new students (33.9%) came from a household the State verified as poor enough to have fees reimbursed.

Source: Jnanabhumi status report, 2024–25 intake.

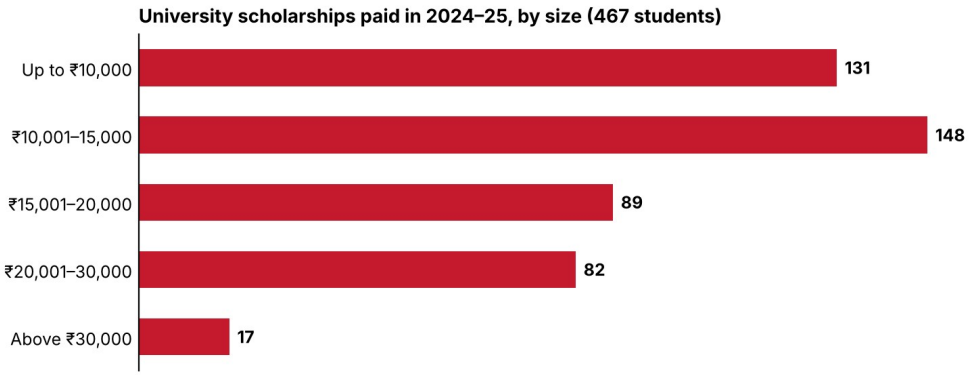

University scholarships, 2024–25

Admission batch	Students	Amount paid	Average per student
2021–22	81	₹12,99,000	₹16,037
2022–23	32	₹4,90,900	₹15,341
2023–24	32	₹6,23,750	₹19,492
2024–25	322	₹54,70,600	₹16,989
Total	**467**	**₹78,84,250**	**₹16,883**

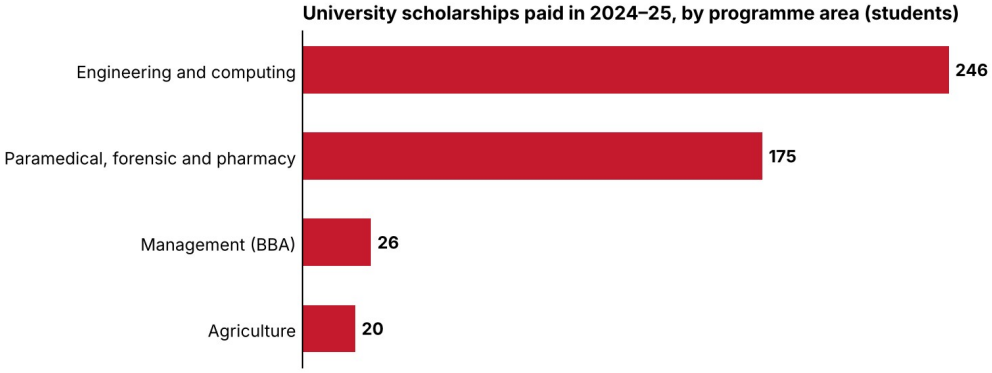

Source: University scholarship ledger, 2024–25.

1.2.1 Size and Reach of University Scholarships

Awards sized to meet a real share of the fee

60% of scholarship holders received between ₹10,000 and ₹30,000; 17 students with the greatest need received more than ₹30,000.

Scholarships reach students in every programme area. Source: University scholarship ledger, 2024–25.

Other forms of aid

1	Government scholarships: Post-Matric Scholarships for SC, ST and OBC students (National Scholarship Portal) and the Central Sector Scheme of Scholarships for meritorious students from low-income families.
2	Philanthropic scholarship: ₹25,000 a year for students scoring 90% or above in Intermediate (10+2), sponsored by the Aditham Lakshmana Rao and Seshamma Memorial Trust.
3	Tuition fee waivers for economically disadvantaged students, and payment of fees in two instalments.
4	Guidance for education loans from banks on favourable terms.

HOW THIS MEETS INDICATOR 1.2.1

Nearly one in four students studied with a University scholarship in 2024–25, and one in three new students came from a family the State verified as eligible for fee reimbursement.

PART 2

Indicators 1.3.1 – 1.3.5

Access, Success and Support for the Poorest Students

Admission targets, completion, everyday support and students from low-income countries

1.3.1 Bottom Financial Quintile Admission Target

Policies and results of admission, 2024–25

The University's admission targets rest on two University policies, the Equal Opportunity Policy (2024) and the Poverty Reduction Policy (2024). Together they name socio-economically disadvantaged groups as a priority for admission across the University and commit it to tracking how many such students it admits each year. The University also follows the constitutionally mandated reservation of seats for communities concentrated in the lowest income groups.

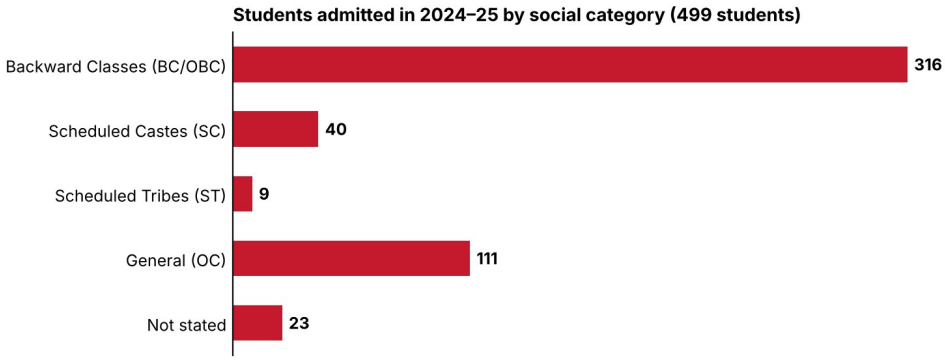

Category	Seats reserved	Socio-economic relevance
Scheduled Castes (SC)	15%	Long-term economic and social exclusion
Scheduled Tribes (ST)	7.5%	Mostly rural and forest-dwelling, lowest income groups
Other Backward Classes (OBC)	27%	Persistent income gaps
Total	**49.5%**	

499
students admitted, 2024–25

365 (73.1%)
from SC, ST and BC communities

78
with EWS (55) or EBC (23) certificates

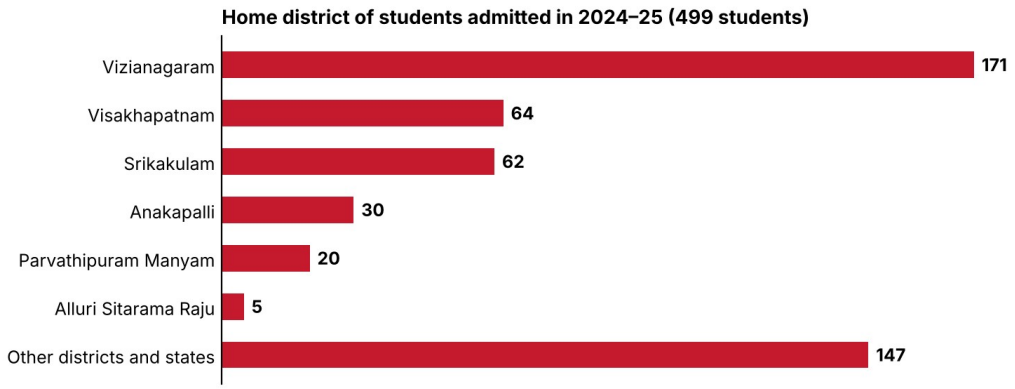

352 (70.5%)
from north coastal AP districts

Source: student register, 2024–25. The share admitted from SC, ST and BC communities (73.1%) is well above the 49.5% of seats reserved for them.

1.3.1 Serving an Aspirational District

Where new students come from

Source: student register, 2024–25. Vizianagaram alone sent 171 students; the intake includes students from the tribal districts of Parvathipuram Manyam and Alluri Sitarama Raju.

Oversight: Equal Opportunity Cell

The Equal Opportunity Cell for 2025–26, constituted on 16 July 2025 and chaired by the Registrar, Dr. P. Pallavi, oversees fair treatment of students from disadvantaged groups, with named nodal officers for SC, ST and OBC students and for students with disabilities.

Member	Role in the cell
Dr. P. Pallavi, Registrar	Chairperson
Dr. D. Srinivasa Rao, Dean	Convener
Dr. P. S. V. Ramana Rao	Nodal Officer, OBC
Dr. K. Vijaya Babu, Dean R&D	Nodal Officer, SC
Mr. Budu Sabar	Nodal Officer, ST
Mr. K. V. Kalyan Chakravarthy	Nodal Officer, Persons with Disabilities
Dr. P. A. Sunny Dayal · Dr. R. S. Varma · Mr. K. Pavan Kumar (HR)	Members

HOW THIS MEETS INDICATOR 1.3.1

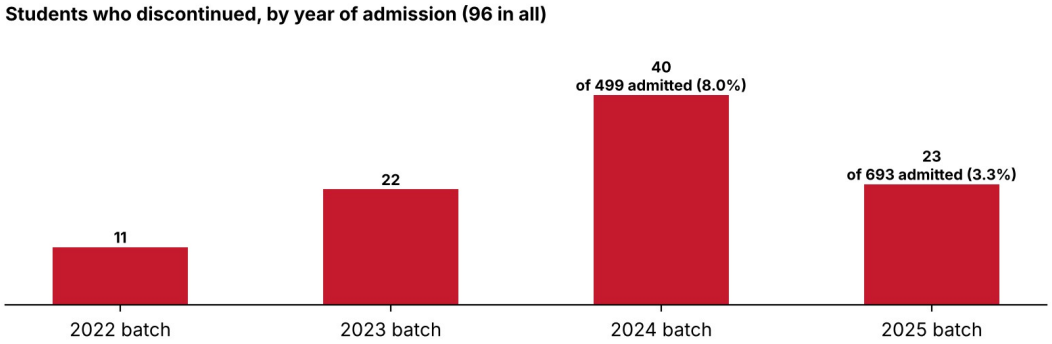

A stated aim, backed by policy and reserved seats, to admit students from the poorest households — and an intake in which nearly three in four new students come from SC, ST and BC communities.

1.3.2 Bottom Financial Quintile Student Success

Graduation and completion

The University measures success by how many low-income students leave with a degree, not only by how many enrol. Its policies make students from disadvantaged groups a priority for retention and graduation, and the University follows the progress of students who receive financial aid and steps in early when a student starts to fall behind.

82%	92%	96.7%	744
overall pass percentage, 2025	of 2024 batch still enrolled	of 2025 batch still enrolled	students aided over three years

Source: Registrar's record of discontinued students. 40 of the 499 students admitted in 2024 (8.0%) and 23 of the 693 admitted in 2025 (3.3%, to date) have discontinued.

What keeps students on course

1	Need-based scholarships and help to claim government fee reimbursement and scholarships.
2	Remedial classes for students who need extra help, and a faculty mentor for every student.
3	Fees payable in two instalments; during the COVID-19 pandemic fee deadlines were extended by up to one year.
4	Free health screening, mental-health workshops and counselling on campus (4 April 2025, 254 students), and mental-health sessions in November 2025 (240 student attendances).

HOW THIS MEETS INDICATOR 1.3.2

Completion goals for low-income students, supported by financial, academic and health support, with an 82% pass percentage and high retention in the most recent batches.

1.3.3 Low-Income Student Support

Help with the everyday costs of studying

Type of support	Free or subsidised	What the student receives
Food	Paid (no concession)	Balanced, freshly prepared meals under the University Policy for Good Food in the Campus; free drinking-water points
Housing	Paid (no concession)	Separate hostels for girls and boys, each with a superintendent and wardens
Transport — University bus	Paid (no concession)	Buses on students' home routes
Transport — public	Subsidised / free	Government student bus pass and railway student pass at concessional rates
Health care	Free	Screening, mental-health workshops and counselling for 254 students (4 April 2025)
Health information	Free	Reproductive-health session for 120 students (18 Nov 2025); mental-health sessions, 240 attendances
Fee support	Free	Tuition fee waivers for disadvantaged students; payment in two instalments
Grievance and legal support	Free	Six committees for 2025–26, including advocates and a police officer

Student welfare and grievance committees, 2025–26

Committee (date constituted)	Chairperson	Members
Student Grievance Redressal Committee (16 Jul 2025)	Dr. P. Pallavi, Registrar	12, including an Ombudsman and both hostel superintendents
Anti-Ragging Committee (16 Jul 2025, UGC guidelines)	Dr. R. S. Varma, Dean – Students Affairs	41: 17 faculty and staff, 6 external (police Sub-Inspector, two advocates, PRO, two reporters), 17 students
Committee against Sexual Harassment (16 Jul 2025)	Dr. G. Pushpalatha, Dean	7, including external advocate Ms. Vaddadi Sridevi
Girls Hostel Grievance Committee (17 Jul 2025)	Dr. P. Pallavi, Registrar	8, including the superintendent and chief warden
Disciplinary Committee (28 Aug 2025)	Prof. D. Srinivasa Rao	11
Equal Opportunity Cell (16 Jul 2025)	Dr. P. Pallavi, Registrar	9, with nodal officers for SC, ST, OBC and PwD

Committee membership: Registrar's office orders, 2025–26. Photographs of the free on-campus health programmes: Annex P1–P3.

1.3.4 Bottom Financial Quintile Student Support

Programmes that take students from admission to a job

Scheme	Who it helps	Support
Post-Matric Scholarships (National Scholarship Portal)	SC, ST and OBC students from low-income families	Fees and maintenance
Central Sector Scheme of Scholarships	Meritorious students from low-income families	Annual scholarship
Aditham Lakshmana Rao and Seshamma Memorial Trust	Students scoring 90%+ in Intermediate	₹25,000 a year
Institutional need-based scholarships	Students from economically weaker families	Tuition, fees and living costs
Tuition fee waiver	Economically disadvantaged students	Tuition waived
Education loan support	Students who need extra funds	Help securing bank loans

Skills that lead to work

Every student takes one skill course each semester alongside the degree. In 2025–26 the University offered 33 skill courses, taken by 1,464 students (2,198 enrolments); 98% of enrolments were in courses graded at NSQF Levels 4–6, and 16 courses with 933 enrolments are mapped to SDG target 1.4 because they give practical, income-earning skills. Students also worked on real problems set by government bodies at the Smart India Hackathon 2025 internal round (16–18 September 2025): 462 students in 77 teams, 28 shortlisted.

Hands-on skill course: E-Vehicle Assembly & Service Technology (geo-tagged)

Student teams presenting solutions, Smart India Hackathon 2025

HOW THIS MEETS INDICATOR 1.3.4

A joined-up set of programmes — financial aid, skills, mentoring, health support and flexible fees — so that students from the poorest households can complete their studies and leave ready for work.

1.3.5 Students from Low or Lower-Middle Income Countries

International scholars, 2025

Country	World Bank income group	Students	Programme	Financial aid
Syria	Low income	2	PhD	None (self-funded)

In 2025 two students from Syria enrolled in the University's PhD programme. They fund their own studies; the University gave them no financial aid. They have the same access as every other student to the University's non-financial support — free on-campus health screening and counselling, the hostels and the student welfare committees — and their research progress is monitored by the University Research Committee, constituted on 16 July 2025 and chaired by the Vice-Chancellor, Dr. P. K. Mohanthy.

> **NOTE FOR REVIEWERS**
> *Indicator 1.3.5 is claimed in part: the University supports students from low-income countries with non-financial services, but does not yet offer dedicated financial aid to them.*

PART 3

Indicators 1.4.1 – 1.4.4

Community Anti-Poverty Programmes

Skills, credit, basic services and policy for the communities around the campus

1.4.1 Local Start-up Assistance

Free training in a trade for women from nearby villages

The University's flagship community programme in 2025 was the Sewing Machine Operator (SMO) course in its campus Apparel Production Lab. It is open to unemployed women and school or college drop-outs from nearby villages — none is an enrolled student — and completely free: there is no fee for training, machines, materials or certification. Each trainee works on her own industrial JUKI machine, and the course covers machine operation, measurement and cutting, garment stitching, quality checking, soft skills and financial literacy — how to open and use a bank account, save, and apply for government schemes for women entrepreneurs.

Batch	Training period	Women certified
Batch 1	6 Jan – 21 Mar 2025	33
Batch 2	7 Apr – 20 Jun 2025	33
Batch 3	7 Jul – 19 Sep 2025	33
Batch 4	6 Oct – 19 Dec 2025	32
Total	**300 training days**	**131**

Source: training unit's candidate register — all 131 trainees listed by name in Annex J1–J4 (Aadhaar masked).

Women practise on industrial JUKI sewing machines

Marking, cutting and pressing garment panels

Graduates can take up wage employment in garment units or start home-based tailoring. The University also signed an MoU with the Jaquar Foundation on 1 September 2025 to set up a plumbing and sanitation skills lab on campus with NSQF-aligned certification, which may also train people who are not University students (Annex G), and opened its campus free of charge to 400 farmers at the 2nd Rythu Sammelanam to learn about schemes, markets and value addition (Annex D).

1.4.2 Local Start-up Financial Assistance

Credit for small enterprises, state enterprise finance and seed money

For small farmers, street vendors and rural women, formal credit has long been out of reach. In Andhra Pradesh, Gram Tarang Inclusive Development Services (GTIDS) works as a business correspondent for banks, taking loans and banking services into villages that banks rarely reach:

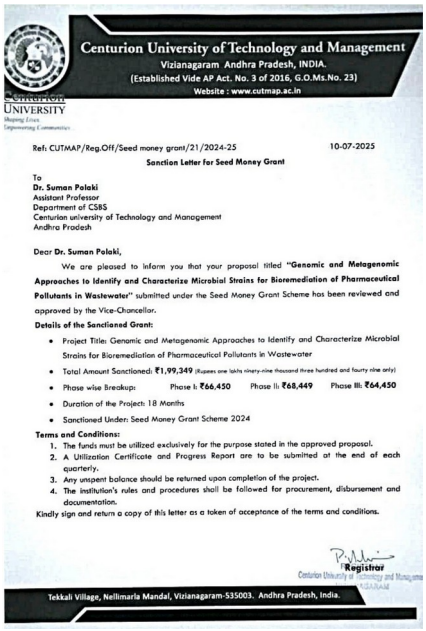

Loan	Partner bank	Who it helps
Soyog Loans	Andhra Pradesh Grameena Vikas Bank (APGVB)	Small borrowers and entrepreneurs
Jagananna Thodu Loans (Government of AP)	APGVB	Street vendors and small traders
Agricultural and allied loans	State Bank of India	Farmers and allied enterprises
Mudra Loans	Punjab National Bank	Micro and small enterprises

Enterprise finance with the Government of Andhra Pradesh

Under its MoU with SEEDAP (19 December 2024 – 18 December 2025), the University is knowledge partner and programme management unit for self-employment programmes for rural youth aged 18–35 and school drop-outs: identifying enterprise clusters and preparing a business plan for each, building market linkages, handing enterprises to self-help groups or producer companies, and mobilising CSR funds to finance them (Annex A).

University seed money grant

Item	Details
Sanctioned	10 July 2025 (ref. CUTMAP/Reg.Off/Seed money grant/21/2024-25)
Grantee	Dr. Suman Polaki, Assistant Professor
Project	Microbial strains for bioremediation of pharmaceutical pollutants in wastewater
Amount	₹1,99,349 in three phases (₹66,450 · ₹68,449 · ₹64,450)
Duration	18 months

Centurion University of Technology and Management
Vizianagaram Andhra Pradesh, INDIA.
(Established Vide AP Act. No. 3 of 2016, G.O.Ms.No. 23)

Ref: CUTMAP/Reg.Off/Seed money grant/21/2024-25 10-07-2025

Sanction Letter for Seed Money Grant

To
Dr. Suman Polaki
Assistant Professor
Department of CSBS
Centurion university of Technology and Management
Andhra Pradesh

Dear **Dr. Suman Polaki**,

We are pleased to inform you that your proposal titled **"Genomic and Metagenomic Approaches to Identify and Characterize Microbial Strains for Bioremediation of Pharmaceutical Pollutants in Wastewater"** submitted under the Seed Money Grant Scheme has been reviewed and approved by the Vice-Chancellor.

Details of the Sanctioned Grant:

- Project Title: Genomic and Metagenomic Approaches to Identify and Characterize Microbial Strains for Bioremediation of Pharmaceutical Pollutants in Wastewater
- Total Amount Sanctioned: **₹1,99,349** (Rupees one lakhs ninety-nine thousand three hundred and fourty nine only)
- Phase wise Breakup: Phase I: **₹66,450** Phase II: **₹68,449** Phase III: **₹64,450**
- Duration of the Project: 18 Months
- Sanctioned Under: Seed Money Grant Scheme 2024

Terms and Conditions:

1. The funds must be utilized exclusively for the purpose stated in the approved proposal.
2. A Utilization Certificate and Progress Report are to be submitted at the end of each quarterly.
3. Any unspent balance should be returned upon completion of the project.
4. The institution's rules and procedures shall be followed for procurement, disbursement and documentation.

Kindly sign and return a copy of this letter as a token of acceptance of the terms and conditions.

Registrar

Tekkali Village, Nellimarla Mandal, Vizianagaram-535003. Andhra Pradesh, India.

Sanction letter, 10 July 2025 (Annex L1)

> **NOTE FOR REVIEWERS**
> *1.4.2 is claimed in part: the loan services are delivered by GTIDS with partner banks, and the 2025 seed money grant funds a University research project with potential for a local enterprise; no University financial assistance to a local start-up is documented for 2025.*

1.4.3 Programmes for Access to Basic Services

Free health care, health information and financial literacy, 2025

Poverty is also a lack of access to health care, information and banking. In 2025 the University took free services into villages, schools and care homes across north coastal Andhra Pradesh: 18 Healthcare on Wheels events (2,306 people) and 18 eye-health camps (3,569 people), every one documented with photographs.

Programme	Service accessed	Reach	Proof
Healthcare on Wheels (18 events)	Screening of vital signs, haemoglobin, blood group, vision, child growth; counselling	2,306	Annex H
Free eye camps (18)	Eye screening, spectacle prescriptions, cataract referral	3,569	Annex C
Disadvantaged groups (3)	Seethamdhara settlement (51), Gajapathinagaram complex (60), MIHIRA Charitable Organization (64)	175	Annex H
Medical camps, Ramatheertham (8 and 15 Feb)	Check-ups, free medicines and spectacles	120 (as recorded)	—
Blood donation (11 Apr; 20 Nov)	Blood for Maharaja Government Hospital patients	75 donors; 105 units (as recorded)	—
Awareness sessions (19)	Women's health (376), mental health (933), anti-tobacco (47)	1,356 (as recorded)	Annex V
Sewing Machine Operator course	Financial literacy: bank accounts, saving, government schemes	131	Annex J

The Healthcare on Wheels van and team

Seethamdhara settlement camp (geo-tagged)

Health check-ups for elderly residents

HOW THIS MEETS INDICATOR 1.4.3

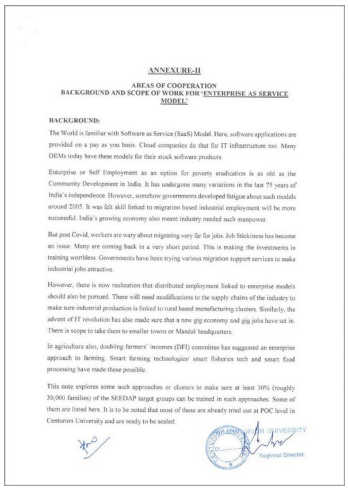

Free screening, eye care, medicines and health information taken to the people who need them most, and financial-literacy training that helps women reach formal banking.

1.4.4 Policy Addressing Poverty

Local, state and national anti-poverty programmes

Level	Programme or policy	University's role
Local	2nd Rythu Sammelanam (8 Nov 2025)	Forum of farmers, the AP Minister for MSME, SERP and NRI Empowerment, district officials, FPOs and companies
Local	Job Melas with the Panchayati Raj Department	Mobilising youth from poor households for skill training
Local	Free Sewing Machine Operator course	Training 131 unemployed women and drop-outs from nearby villages
State	SEEDAP MoU (19 Dec 2024), Government of Andhra Pradesh	Knowledge partner and programme management unit for rural self-employment; author of the "Enterprise as a Service" strategy
State	Jagananna Thodu Loans	Loans to street vendors through GTIDS and APGVB
National	NSDC MoU (13 Sep 2024), "Democratizing Future Skills"	Advising on future skills and on lowering costs for learners regardless of income or remoteness

The University's strategy note to the Government of Andhra Pradesh found that post-Covid skilling linked to migration was failing rural youth, and proposed an "Enterprise as a Service" model that brings work to villages through household garment sewing and small-scale assembly, app-based village services and high-value agriculture. The partnership aims to reach 30,000 people over two years.

ANNEXURE-II

AREAS OF COOPERATION
BACKGROUND AND SCOPE OF WORK FOR "ENTERPRISE AS SERVICE MODEL"

BACKGROUND:

The World is familiar with Software as Service (SaaS) Model. Here, software applications are provided on a pay as you basis. Cloud companies do that for IT infrastructure too. Many OEMs today have these models for their stock software products.

Enterprise or Self Employment as an option for poverty eradication is as old as the Community Development in India. It has undergone many variations in the last 75 years of India's independence. However, somehow governments developed fatigue about such models around 2005. It was felt skill linked to migration based industrial employment will be more successful. India's growing economy also meant industry needed such manpower.

But post Covid, workers are wary about migrating very far for jobs. Job Stickiness has become an issue. Many are coming back in a very short period. This is making the investments in training worthless. Governments have been trying various migration support services to make industrial jobs attractive.

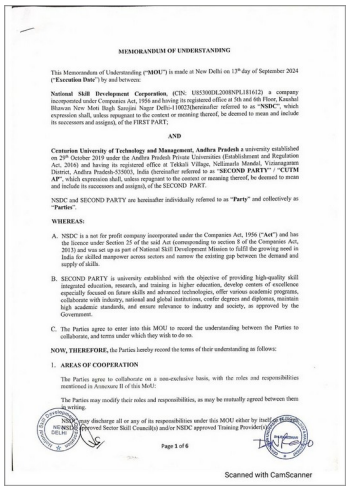

However, there is now realization that distributed employment linked to enterprise models should also be pursued. These will need modifications to the supply chains of the industry to make sure industrial production is linked to rural based manufacturing clusters. Similarly, the advent of IT revolution has also made sure that a new gig economy and gig jobs have set in. There is scope to take them to smaller towns or Mandal headquarters.

In agriculture also, doubling farmers' incomes (DFI) committee has suggested an enterprise approach to farming. Smart farming technologies/ smart fisheries tech and smart food processing have made these possible.

This note explores some such approaches or clusters to make sure at least 30% (roughly 30,000 families) of the SEEDAP target groups can be trained in such approaches. Some of them are listed here. It is to be noted that most of these are already tried out at POC level in Centurion University and are ready to be scaled.

Regional Director

SEEDAP strategy note (Annex A7)

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding ("**MOU**") is made at New Delhi on 13th day of September 2024 ("**Execution Date**") by and between:

National Skill Development Corporation, (CIN: U85300DL2008NPLI81612) a company incorporated under Companies Act, 1956 and having its registered office at 5th and 6th Floor, Kaushal Bhawan New Moti Bagh Sarojini Nagar Delhi-110023hereinafter referred to as "**NSDC**", which expression shall, unless repugnant to the context or meaning thereof, be deemed to mean and include its successors and assigns), of the FIRST PART;

AND

Centurion University of Technology and Management, Andhra Pradesh a university established on 29th October 2019 under the Andhra Pradesh Private Universities (Establishment and Regulation Act, 2016) and having its registered office at Tekkali Village, Nellimarla Mandal, Vizianagaram District, Andhra Pradesh-535003, India (hereinafter referred to as "**SECOND PARTY**" / "**CUTM AP**", which expression shall, unless repugnant to the context or meaning thereof, be deemed to mean and include its successors and assigns), of the SECOND PART.

NSDC and SECOND PARTY are hereinafter individually referred to as "**Party**" and collectively as "**Parties**".

WHEREAS:

A. NSDC is a not for profit company incorporated under the Companies Act, 1956 ("**Act**") and has the licence under Section 25 of the said Act (corresponding to section 8 of the Companies Act, 2013) and was set up as part of National Skill Development Mission to fulfil the growing need in India for skilled manpower across sectors and narrow the existing gap between the demand and supply of skills.

B. SECOND PARTY is university established with the objective of providing high-quality skill integrated education, research, and training in higher education, develop centers of excellence especially focused on future skills and advanced technologies, offer various academic programs, collaborate with industry, national and global institutions, confer degrees and diplomas, maintain high academic standards, and ensure relevance to industry and society, as approved by the Government.

C. The Parties agree to enter into this MOU to record the understanding between the Parties to collaborate, and terms under which they wish to do so.

NOW, THEREFORE, the Parties hereby record the terms of their understanding as follows:

1. AREAS OF COOPERATION

The Parties agree to collaborate on a non-exclusive basis, with the roles and responsibilities mentioned in Annexure II of this MoU:

The Parties may modify their roles and responsibilities, as may be mutually agreed between them in writing.

NSDC may discharge all or any of its responsibilities under this MOU either by itself or through its approved Sector Skill Council(s) and/or NSDC approved Training Provider(s).

SEEDAP MoU — page 2

Areas of cooperation; role as knowledge partner and PMU

unless repugnant to the context or meaning thereof, be deemed to mean and include its successors and assigns), of the SECOND PART.

SEEDAP and CUTMAP are hereinafter individually referred to as '**Party**' and collectively as '**Parties**'.

WHEREAS:

SEEDAP is a society registered under the Societies Registration Act 2001 with an objective to provide employment opportunities to rural unemployed youth with a special focus on school/college drop-outs aged between 18-35 years through skill development trainings to fulfill the growing need in India for skilled manpower across sectors and narrow the existing gap between the demand and supply of skills.

CUTMAP is a university established with the objective of providing high-quality skill integrated education, research, and training in the higher education, develop centers of excellence especially focused on future skilled and advanced technologies, offer various academic programs, collaborate with industry, national and global institutions, confer degrees and diplomas, maintain high academic standards, and ensure relevance to industry and society, as approved by the Government.

The Parties agree to enter into this MOU to record the understanding between the Parties to collaborate, and terms under which they wish to do so.

NOW, THEREFFORE, the Parties hereby record the terms of their understanding as follows:

1. AREAS OF COOPERATION

The Parties agree to collaborate on a non-exclusive basis, with the roles and responsibilities mentioned in **Annexure II** of this MOU:

The Parties modify their roles and responsibilities, and may be mutually agreed between them in writing.

SEEDAP may discharge all or any of its responsibilities under this MOU either by itself or though courses approved by the SSCs (Sector Skill Council's) and /or SEEDAP approved Training Providers(s).

2. TERM AND TERMINATION

The term of this MOU (i/e from19.12.2024 to 18.12.2025) is specified in Annexure I (**Term**) unless terminated earlier in accordance with the terms of this MOU,

Termination: Either Party may terminate this MOU at any time by giving the other Party notice in writing. On termination of this MOU, each Party agrees to return all properties, including but not limited to content, technology, software and documentations owned and/or provided by the other Party.

Role of CUTM

The role of Centurion University is to be a knowledge partner and be an end to end project management partner (PMU) for the implementation of self-employment-oriented skills programmes

CENTURION UNIVERSITY For CENTURION UNIVERSITY Dt. Regional Director.

A3

SEEDAP MoU — page 3

The University's role (items 1–16)

The exact role will be:

1. Identifying such enterprise clusters in the state of AP and assess their present position
2. Identify the market opportunities, companies that can provide linkages for such clusters
3. Arrange for skills training through SEEDAP
4. And arrange for networked distributed production, quality control and other services
5. Provide market linkages
6. The University will help SEEDAP in providing such services as a cluster project and will help in building, operating and managing such projects and handing them over to community structures, user groups, SHGs or producer companies
7. The university will identify such clusters in consultation with SEEDAP and other government agencies
8. University will help in sourcing the required raw material and other linkages
9. The targeted numbers will be 30,000 people in a period of 2 years
10. Based on this MOU, the University will work on an exact business plan for each of the clusters, identifying the potential, gaps and the ways and means of filling such gaps
11. Some such clusters are apparel, auto parts, dragon fruit cultivation, organic and smart agriculture clusters and drone manufacturing and services clustets
12. The University will bring in out of box thinking and innovative solutions with minimal funding requirements for such services.
13. The endeavour is to harness existing infrastructure, skills and resources already there in the state and provide only gap filling services
14. The University will also help in harnessing CSR funds and corporate partnerships for successful implementation of these projects
15. The University will work with SEEDAP in any other aspects that may arise for successful implementation of these cluster projects
16. This MOU is non-financial in nature and each project will be discussed in detailed and approved by SEEDAP once the projects are fully developed.

Role of SEEDAP:

a. To nominate a single point of contact(SPOC) to coordinate the implementation of the Programme.

b. To give wide publicity about job opportunities and the joint Programmes being conducted with the second party particularly in educational, placements and self-employment to the candidates.

c. To organize seminars, job fairs, orientation camps and other outreach events to identify candidates for the specific training programmes.

d. The first Party agrees to provide necessary infrastructure, including lodging and boarding facilities, for the conduct of offline language training programs for shortlisted candidates. The duration of such training shall be determined based on the specific job role requirements.

CENTURION UNIVERSITY
Regional Director

A4

SEEDAP MoU — page 4

Other covenants

e. To facilitate training for shortlisted candidates with the support of the second party.

3. OTHER COVENANTS

Non-recourse: The Parties are executing this MOU in good faith, and the MOU is intended to facilitate collaboration on general areas of cooperation. With the exception of Clause 2 (Terms and Termination) and Clause 3 (Other Covenants), this MOU is not intended to create any legally binding obligations on either Party. Separate definitive agreement (s) shall be executed between the Parties within 90 days of signing of this MOU and is not intended to create any financial and legal obligations with respect to the areas of cooperation mentioned in Annexure II of this MoU.

No Liability: Neither Party will be responsible for any liabilities associated with the Operationalization of this MOU, including failure of SEEDAP to meet the objective envisaged in this MoU.

Representation: Neither Party shall represent the other Party in any manner. This MOU does not give authority to either Party to represent or exercise opinion or decision, on behalf of other Party.

Relationship and Financial Obligations: It is agreed that nothing in this MoU shall deem to create any:

Legal relationship, such as a partnership, joint venture, agency, employer –employee relationship or the like between the Parties: or

Financial responsibilities or obligation for any Party towards the other Party or any third party. Notwithstanding any provision of this MOU, this MOU is not intended to and does not grant the status of SEEDAP's affiliated Training Partner to CUTMAP. CUTMAP acknowledges and takes note that a separate agreement is executed by SEEDAP with the concerned entity in accordance with the SEEDAP's internal policies and guidelines including Funding and Non-Funding Guideline for the purpose of granting the status of SEEDAP's affiliated Training Partner to such entity.

Use of name /logos: Neither Party shall use the name, logo and/or official emblem etc, of the other Party in any manner without prior permission in writing from the other Party. Further, CUTMAP will also not use the name, logo, emblem associated with SEEDAP, implement schemes associated with Ministry of Skill Development and Entrepreneurship ('SEEDAP") without prior written permission. If required, then in each instance, prior approval is taken from the appropriate owner of the name, logo and/or official emblem.

Notices: Any notice and other communication to be served on the Parties shall be deemed to be properly served on the same day if delivered personally; or in 3 (three) days from the date of posting if delivered under Registered post with Acknowledgement Due or through courier; or on the same day if delivered by facsimile to the Parties as the case may be at their respective addresses as set forth in Annexure – I hereto, or at such other address as any Party shall hereafter inform the other Party by writing notice given as aforesaid .

Costs: Any cost in relation to advertising in any manner under this MOU shall be borne by CUTMAP Only. SEEDAP may, in its sole discretion, Proved non-financial support in terms of contents of the advertising. Any cost related to purchase of media slots for those advertisements

CENTURION UNIVERSITY
Dt.
Regional Director.

A5

SEEDAP MoU — page 5

Signatures

shall be borne by CUTMAP. Any advertisement on all media under this MoU would need the prior written approval of SEEDAP.

Reputation: Neither Party shall do or cause to be done any act whereby the reputation and Goodwill of the other Party is adversely affected, Further, CUTMAP shall not do or cause to be done any act whereby the reputation of Ministry of Rural Development (MoRD) Government of India or any other Ministry is adversely affected in any manner whatsoever.

Confidentiality: For the Purposes of this MOU, "Confidential Information "shall include all information of any nature and form, which is not generally known to the public, and with respect to both Parties shall include but is not limited to, business knowledge, commercial information, company policies, data shared under this MOU, data about affiliates, partners, trainees, students, donors, scheme implementers and beneficiaries.

The parties agree not to disclose any confidential information to a third party without the approval of the party providing the information, except when required by law or a regulatory authority.

Amendments: This MOU may only be varied by mutual agreement of the Parties in writing.

Dispute Resolution: Any difference or dispute between the parties concerning the interpretation and/or implementation and, or application of any provisions of this MOU shall be settled amicably through mutual consultation or negotiations between the Parties.

Governing law Jurisdiction: This MOU and any matter relating to this MOU shall be governed by and construed in accordance with the laws of India and shall be subject to exclusive jurisdiction of the courts at Vijayawada.

Nothing in this MOU shall be understood or construed as a binding right or obligation of the Parties or as obligating the undersigning Parties hereto, to finally conclude any agreement.

The original executed MoU shall be retained by SEEDAP and a certified copy of the same shall be provided to CUTMAP.

The Parties have caused their duly authorized representative to sign this MOU on the date first above written.

SEEDAP MoU — page 7

Annexure II — the 'Enterprise as a Service' strategy note

ANNEXURE-II

AREAS OF COOPERATION
BACKGROUND AND SCOPE OF WORK FOR 'ENTERPRISE AS SERVICE MODEL'

BACKGROUND:

The World is familiar with Software as Service (SaaS) Model. Here, software applications are provided on a pay as you basis. Cloud companies do that for IT infrastructure too. Many OEMs today have these models for their stock software products.

Enterprise or Self Employment as an option for poverty eradication is as old as the Community Development in India. It has undergone many variations in the last 75 years of India's independence. However, somehow governments developed fatigue about such models around 2005. It was felt skill linked to migration based industrial employment will be more successful. India's growing economy also meant industry needed such manpower.

But post Covid, workers are wary about migrating very far for jobs. Job Stickiness has become an issue. Many are coming back in a very short period. This is making the investments in training worthless. Governments have been trying various migration support services to make industrial jobs attractive.

However, there is now realization that distributed employment linked to enterprise models should also be pursued. These will need modifications to the supply chains of the industry to make sure industrial production is linked to rural based manufacturing clusters. Similarly, the advent of IT revolution has also made sure that a new gig economy and gig jobs have set in. There is scope to take them to smaller towns or Mandal headquarters.

In agriculture also, doubling farmers' incomes (DFI) committee has suggested an enterprise approach to farming. Smart farming technologies/ smart fisheries tech and smart food processing have made these possible.

This note explores some such approaches or clusters to make sure at least 30% (roughly 30,000 families) of the SEEDAP target groups can be trained in such approaches. Some of them are listed here. It is to be noted that most of these are already tried out at POC level in Centurion University and are ready to be scaled.

CENTURION UNIVERSITY
Dt.
Regional Director.

A8

SEEDAP MoU — page 8

Annexure II — Strategies 1 and 2

1. Distributed Manufacturing / Service Clusters

Digital manufacturing and implementation of shop floor to top floor connected production systems approaches (IIOT based) , have made rural based manufacturing and linking them to industrial production supply chains through IIOT a distinct option. The following three can be tried out, providing self-employment to at least 10,000 families.

a. Distributed garment manufacturing clusters: Here, cutting and finishing, washing and packing will be centralized but sewing can be decentralized to household level. EV pick up vehicles can be used for aggregation. Raw material can be sourced from garment aggregators and the finished products can be sold to them. RFID based garment tracking will make sure quality is maintained. Later, such workers can be formed into production companies and even can be linked to branding and marketing agencies. Centurion University has experience in such pilots, and they can be scaled.
b. Auto parts / EV 3 wheeler assembly is another area where this can be tried in some limited geographies like Ananthapuram or Sri City where already auto clusters are developed. We can use the ITI/ diploma colleges as a base which can be training cum production centers or aggregators or network managers.
c. Drone clusters are already well tried in different parts of India. Drone Assembly and drone-based services are ideal to be creating self-employment and they can be connected to drone companies for network management.

There is scope to use some educated youth start-ups for providing design and product development services on payment basis.

2. IT app based services

a. **Fin Tech:** India stack has spawned a huge fin tech industry as a cottage industry. The self-employment can be created for village-based banking service providers using apps developed by MSME sector.
b. **Agriculture Enterprise Support:** There are a lot of apps development for providing smart agriculture and precision agriculture services including soil health monitoring, crop monitoring, yield improvements and marketing and input linkages. Kalgudi, IFFCO Kisan and Centurion Universities Krishi Aadhar is some of them. All these apps need field extension force. Such force can be plus two science graduates who can be trained to deliver such smart agriculture enterprise services. Such agents again will

For CENTURION UNIVERSITY
Dt.
Regional Director.

A9

SEEDAP MoU — page 9

Annexure II — Strategy 3; proposed target; signatures

be supported by Network Managers. There is huge scope to provide a network of such people on self-employment basis. This will also improve crop productivity and farmers' incomes.

c. **App based food delivery / taxi/ auto services:** These can be extended to tier 3 towns or mandals. An open-source app can be created and provided by SEEDAP for such agents at Mandal level. Self-employment can be created for such food and services delivery. Such an open-source app can also move people away from Swiggy or Zomato or Ola or Uber and create local entrepreneurs.

3. Smart Agriculture or High-Value Agriculture

- There is scope here to introduce high value crops like Gerbera, Dutch Roses, Button Mushrooms, Medicinal plants under protected polyhouse conditions. Dragon fruit cultivation has been practiced in tribal areas and in Telangana.
- Even LED light-based speed growing methods have been tried. Hydroponics /Aquaponics, Recirculating Aquaculture Systems can be tried. High value crops like Lettuce, broccoli, cherry tomatoes and other salad crops can be grown. All these are again tried in different locations in India. Saffron is also tried successfully in Telangana.
- It is possible to target creation of about 30,000 enterprise-based self-employment categories. Once an in-principle approval is provided, detailed business plans for each of these enterprise options can be developed clearly outlining the investments/potential for employment/likely income to be created.
- Centurion University is prepared to serve as both a knowledge partner and an implementation partner for these options.

NSDC MoU — page 5

Annexure II — 'Democratizing Future Skills': advisory roles

ANNEXURE-II

AREAS OF COOPERATION
BACKGROUND & SCOPE OF WORK FOR DEMOCRATIZING FUTURE SKILLS

The nature of jobs and future of jobs is changing. India is focusing on rapid economic growth and new age skills; start-ups are a major chunk of such a growth strategy. CUTM AP has developed deep understanding and experience in such new age skills which are focused on creating products, IPs and promote start up economy and has strong thought leadership and established partnerships with many OEMs whose software licenses, content & certifications have a huge value in the market.

NSDC has developed the Skill India Digital Hub as a platform for aggregating demand from educational institutions and students to help link them with training providers, certified trainers and ultimately be part of the job market or the gig economy in the industry.

This MOU envisages a strategic partnership between CUTM AP & NSDC to help further develop the *Skill India Digital Hub* for Future Skills.

1. CUTM AP will work with NSDC to build consensus for the need for Future Skills at state and center level through workshops, seminars, boot camps or a roadshow approach
2. CUTM AP will advise NSDC to identify the *future skills* and potential OEM partners for these skills and aggregate them on the platform.
3. CUTM AP will work with NSDC to negotiate and bring down the cost of licenses & certifications that can be offered on the platform.
4. CUTM AP will advise NSDC on possible ways to bring down the cost of the program and develop its own Cloud and potentially launch its own satellite for reducing the delivery cost of training and ultimately reducing the cost to the learner.
5. CUTM AP will work with NSDC to 'massify' the skills and help remove the elitist notion associated with these skills and make them available for students, regardless of their socio-economic status or remoteness of their location.
6. CUTM AP will work with NSDC to take these courses to the market especially state governments, state skill missions, CSR / Foundations and other Academic institutions.
7. CUTM AP will also work with NSDC to popularize the courses through hackathons at district, state & central level and conduct seminars and workshops with all stakeholders to demystify future skills.
8. CUTM AP will work with NSDC to help link the students with marketplace and also help identify the potential jobs in the industry for these skills or seek freelance or IP opportunities to help monetize the skills
9. CUTM AP will work with NSDC to develop a *Future Skills Platform* which permits trainers and faculty to access the licensed tools required to get certified to impart training and access the students on the SIDH.
10. CUTM AP will work with NSDC to build demand for Future Skills through promotion in online media, mass media, through state level workshops, district level workshops, bootcamps and hackathons
11. CUTM AP will also work with NSDC to help take to market its various other initiatives including NSDC Trust, JobX Portal and Skills GPT with a special focus on Fintech & Agri sectors directly or through its social outreach entities under the Gram Tarang banner.
12. Both parties shall make efforts to promote and facilitate the use of NSDC Trust's Credential Verification Services for any individual and/or entity

NSDC MoU — page 6

Annexure II — further roles

13. CUTM AP will also explore the possibility of developing specific hardware that is needed for the effective delivery of training like EV Labs, Robotic Arms, Logical Controllers, PCBs, Laptops etc.

- **Indicative list of Future Skills**

1. **Digital 3d assets:** They revolve around tools like Unity, Unreal, Dassault 3d tools, Autodesk maya and Adobe Dreamweaver. This universe has one of the largest freelance developer communities. People can develop the assets virtually from anywhere, upload them into marketplace anywhere and get paid through NFTs
2. **Data Science and AI/ML:** AI & data visualization segment uses tools like Power BI, IBM Watson itself, ETL family, Python, Apriso integration. There is dynamic dashboarding that involves APIs, document scraping, web crawling and a host of other skills Generative AI and prompt engineering is the new age.
3. **New age survey – digital twins and BIM:** DGPS, drone based LidaR surveys, multi spectral and hyper spectral imaging is used in smart cities. Digital twins, correlating cadastral maps with satellite maps, Digital map making, Digital Terrain modelling (DTM). Coupled with AI/ML, such tools are used for mapping water bodies, smart fisheries and smart agriculture too.
4. **Blockchain:** Bitcoin, Ethereum, ICP & Enterprise block chain services are offering a host of new age skills and NFTs have gained currency. This, couple with digital asset making is transforming gaming, entertainment, education, customer service experience (cX) in both retail and websites too.
5. **AR, VR, Metaverse:** Design, animation and various other skills required in this domain.
6. **Others:** Chip Making, IIOT, Cloud Computing, Genetics & Genomics, Nanomaterial, EV Technology, Quantum Computing, Hydroponics & Vertical Agriculture, Drone Technology & Any Other
