WORLD HEALTH INNOVATION FORUM – 2025

Our team had the privilege of participating in the World Health Innovation Forum 2025, a global platform that brought together healthcare leaders, innovators, researchers, and technology experts to explore the future of health and wellness.

During the forum, we engaged in insightful discussions on emerging healthcare technologies, digital health solutions, and innovative approaches to improving patient outcomes. The event provided an excellent opportunity to exchange ideas, showcase advancements, and understand global trends shaping the healthcare ecosystem.

CONVOCATION CEREMONY

Our team had the honor of attending the 5th Convocation Ceremony of Centurion University of Technology and Management, held on 13th December 2025 at Vizianagaram, Andhra Pradesh.

The ceremony marked a significant milestone in celebrating academic excellence, dedication, and achievement. Graduates were conferred with their degrees in the presence of esteemed dignitaries, faculty members, and proud families, creating an atmosphere of inspiration and accomplishment.

The event highlighted the university's commitment to nurturing talent, fostering innovation, and preparing future leaders across diverse disciplines. Being part of this prestigious occasion was a truly enriching experience, reinforcing the values of perseverance, learning, and professional growth.

STELLAR HACKATHONT

STELLAR MPC-TSS WALLET

1ST PRIZE - \$450

Our project is a secure digital wallet that helps users protect their crypto assets without relying on a single private key.

Instead of one person holding the entire key, the wallet uses threshold security, where multiple trusted parties each hold a small part of the key. A transaction can be approved only when a minimum number of parties agree, making it much safer against hacks, key loss, or mistakes.

The wallet works like a normal crypto wallet for the user, but behind the scenes it uses advanced cryptography to sign transactions securely. No single party ever has full control of the funds.

Our goal is to make strong security simple and usable, especially for individuals, teams, and small organizations who want safer crypto wallets without complex setups.

MINT2METAL

2ND PRIZE - \$400

Mint2Metal solves the problem of trust, access, and usability of physical silver in a digital-first world by bridging real, vaulted silver with blockchain-based ownership. Today, physical silver is difficult to verify, store, liquidate, or use for loans, while digital silver products lack transparency, true backing, and redemption.

Mint2Metal fixes this by minting tokens only after silver is securely deposited, enabling compliant access for Indian users and open Web3 participation for global users, allowing silver to be traded, used as collateral, and eventually redeemed—without breaking trust or regulatory boundaries.

FACULTY SPORTS DAY

Faculty members came together to engage in friendly competition, demonstrating sportsmanship, coordination, and mutual respect. The day provided a refreshing break from routine academic responsibilities and emphasized the importance of maintaining a healthy work-life balance.

Faculty Sports Day not only strengthened interpersonal bonds but also fostered a positive and energetic campus environment, reinforcing the institution's commitment to holistic development and wellness.

PRE-CHRISTMAS CELEBRATION

The campus celebrated the Pre-Christmas Celebration with joy, togetherness, and festive spirit. Faculty and staff came together to mark the occasion through cheerful interactions, cake cutting, and moments of shared happiness.

The celebration reflected the values of unity, cultural harmony, and mutual respect, creating a welcoming and inclusive atmosphere. The presence of festive decorations and traditional elements added to the spirit of the occasion, making it a memorable experience for everyone involved.

Such celebrations strengthen interpersonal bonds and contribute to a vibrant campus culture, fostering positivity and a sense of community beyond academic pursuits.
